PROJECTS

To-do List

- Developed a responsive To-Do List web application using HTML, CSS, and JavaScript for task management
- Implemented dynamic task handling with JavaScript, enabling users to add, complete, and delete tasks interactively
- Integrated browser localStorage for persistent task data across sessions without backend dependency
- Designed a visually appealing and user-friendly interface with animated gradient backgrounds using CSS
- Ensured seamless user experience through interactive UI elements, event listeners, and intuitive task status updates

EXPERIENCE

Java Full Stack Developer intern, Anurag IT Solutions	Duration: 6 months
■ Developed web applications using Java, Spring Boot, and Hibernate for backend services. ■ Designed responsive frontends with HTML, CSS, JavaScript, and React.js (or Angular, depending on the stack). ■ Built RESTful APIs and integrated them with front-end components. ■ Used MySQL / PostgreSQL for database design, development, and optimization. ■ Worked with version control systems like Git and deployment tools like Tomcat or Docker. ■ Participated in Agile/Scrum development cycles, including sprint planning, daily stand-ups, and retrospectives. ■ Involved in unit testing and debugging using JUnit and Postman. ■ Gained hands-on experience in full Software Development Life Cycle (SDLC).
